

Strategic Axes

- 38. The framework for this Action Plan takes reference from the latest Global Health Sector Strategies for 2022 - 2030 ^[4] and guidance manual for the development and assessment of national viral hepatitis plans ^[15] published by the WHO, as well as the recommended framework for global actions ^[14] and the previous Action Plan ^[13].
- 39. With an evolving strategy and a broadened scope of actions in this Action Plan, priority actions for progressing towards the WHO targets of viral hepatitis elimination have been developed in each of the following axes—
